

Portable Air Dehumidifier

Instruction Sheet – CLI-DHE

The reusable dehumidifier is designed to absorb moisture from closets, cabinets and enclosed spaces. It can be used over and over again, use it in your clothes draw, car boot, caravan, piano, pantry, anywhere you want to reduce moisture!

DIRECTIONS FOR USE

1. Place the dehumidifier in the enclosed space where it will automatically start absorbing moisture.

WARNING

When dehumidifier is in use, it does NOT need to be plugged in. The recharge lead is for use ONLY when recharging the dehumidifier.

NOTE

The appliance air vents and air grilles must not be obstructed. If the indicator window is pink directly from the packaging please charge before using, see point 3. below.

2. Overtime as the unit absorbs moisture the indicator window will change from a BLUE colour to a PINK colour. The pink colour indicates that the dehumidifier has absorbed the maximum amount of moisture.

Indicator Pink: Dehumidifier is saturated with moisture. It is time to rejuvenate it.

Indicator Blue: Dehumidifier is ready for use.

3. To recharge the dehumidifier plug it into an appropriate electrical outlet with the supplied recharge lead. Leave the dehumidifier over night to recharge (at least 10 hours). It is normal for mild heat to be generated when it is plugged into an electrical outlet. When it is fully recharged the indicator window will be blue.
4. Remove the recharge lead and store it away for the next use. The Dehumidifier is now ready to be placed in an enclosed space to start absorbing moisture.

CAUTION

- Contains small parts (Silica Dioxide crystals SiO₂) which may present a choking hazard to small children. If ingested seek medical advice immediately.
- Keep out of reach of children.
- Do not open the case.
- Do not drop.
- Avoid water.
