CLI-MATE RECOMMENDS SAFETY FIRST

At Cli-Mate we are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer, foremost in mind. In addition we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions.

IMPORTANT SAFEGUARDS

READ ALL INSTRUCTIONS BEFORE USE AND SAVE FOR FUTURE REFERENCE

- All components need to be installed in accordance with the user manual instructions for correct performance of unit.
- This appliance should be used in conjunction with a safety switch.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use appliance for other than intended use.
- Do not disassemble, repair or re-form the unit, it may cause injury, fire or other malfunctions. A qualified service agent must make all service adjustments. Unauthorised disassembling of the product will void the warranty.
- Unplug from outlet when not in use and before cleaning. Never plug in or unplug unit with wet hands.
- Do not use unit outdoors or expose to greasy or damp environments.
- Keep the rear air inlet and outlet free from air blocking materials such as clothing, plastic bags or papers. Air flow is required for the unit to operate effectively.
- Place unit on a flat location at least 30cm from wall or other appliances.
- When the unit is in operation, keep all body parts, jewellery, hair and loose clothing away from the openings
- Unit must be placed on a stable flat surface to reduce possible excessive vibration and noise.

- Keep the unit away from fire, flammable gas, combustible products or vapours, and corrosive substances.
- Do not operate the unit without filters.
- When transporting the air purifier, always hold the handles on the side of the unit.
- To protect against fire, electric shock and personal injury, do not immerse cord, plugs, or appliance in water or other liquid.
- Do not place on or near a hot gas, electric burner or heating appliance.
- Check voltage to be sure that the voltage indicated on the nameplate agrees with your voltage.

IMPORTANT SAFEGUARDS FOR ALL ELECTRICAL APPLIANCES

- Unwind the power cord fully before use.
- Do not let the power cord hang over the edge of a bench or table, touch hot surfaces, or become knotted.
- To protect against electric shock do not immerse power cord, power plug or appliance in water or any other substance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Children should be supervised to ensure they do not play with the appliance.
- It is recommended to regularly inspect the appliance. Do not use the appliance if power cord, power plug or appliance becomes damaged in anyway. Return the entire appliance to the nearest authorised Cli-Mate Service Centre for examination and/ or repair.
- Any maintenance other than cleaning should be performed at an authorised Cli-Mate Service Centre.
- This appliance is recommended for household use only. Do not use this appliance for anything other than its intended use. Do not use in moving vehicles or boats. Do not use outdoors. Misuse may cause injury.
- The installation of a residual current device (safety switch) is recommended to provide additional safety protection when using electrical appliances. It is advisable that a safety switch with a rated residual operating current not exceeding 30mA be installed in the electrical circuit supplying the appliance. See your electrician for professional advice.

WARNING

Fully unwind the cord before use.

**FOR HOUSEHOLD USE ONLY
SAVE THESE INSTRUCTIONS**

Components

- A. Air Outlet
- B. Fan Speed
- C. Power On/Off

- D. Filter
- E. Filter Cover
- F. Power Input

Functions

PRODUCT FEATURES

Filters

The 3-layer filter contains a Pre-filter, a HEPA filter and an activated carbon filter.

- The Pre-filter traps larger particles such as dust, pet hair and large-sized allergens.
- The HEPA filter (Grade H12) removes 99.5% of particles as small as 0.3 microns and greater from the air. It is capable of removing smoke, dust, pollen, pet dander, mould spores, bacteria and allergens in the air.
- The Activated carbon filter absorbs common household odours, VOCs, cigarette odours, chemical fumes and smoke.

OPERATION INSTRUCTIONS

1. Locate a flat stable location and plug the power cord into the appropriate electrical outlet. The unit can also be powered by plugging it into a computer USB port.
2. The power icon will illuminate. Touch the Power icon to turn unit on.
3. The Fan Speed icon will now illuminate and the fan will start running on low speed. To change to high speed touch fan icon again. The icon illuminates blue on high speed.

SYSTEM SPECIFICATIONS

MODEL CODE	CLI-AP11-B
UNIT POWER SUPPLY RATING	5V 2.5W
AC/DC ADAPTOR RATING	Input: 100–240V 50-60Hz 0.3A Output: 5V 1A
AIR FLOW	10–20m ³ /h
PRODUCT DIMENSIONS	L115 x W115 x H209 (mm)
FILTER REPLACEMENT CODE	CLI-AP11-RF

AIR PURIFICATION SYSTEM

Care & Cleaning

CAUTION: Before carrying out cleaning or maintenance of the product, always turn off and unplug the cord from the power socket and unit.

EXTERNAL CLEANING OF UNIT

- Do not rinse the unit or immerse the unit in water.
- Do not use abrasive cleaners or brushes to clean.
- Clean the outside surface of the unit with a soft cloth.

CHANGING THE FILTER

The filters used in this unit are not designed to be washed or otherwise reused. When the life of the filter reaches its end, the power icon will flash red indicating that it needs to be changed.

While the length of time between filter changes will vary based on the amount of use and the conditions in which the unit is run, it will be approximately every 6 months.

To replace the filter, turn off unit and disconnect the power.

Turn the filter cover anti-clockwise and pull outwards. Remove old filter and discard. Install the new filter, ensuring that the white side (HEPA) is facing outwards. Re-instate the filter cover. To reset the filter timer, hold down the Power Icon until it stops flashing.

Troubleshooting

PROBLEM	POSSIBLE CAUSES	EASY SOLUTION
No Power.	<ul style="list-style-type: none">• Unit is not plugged into wall socket.	<ul style="list-style-type: none">• Check connection to wall socket and USB ports.
Loud fan motor	<ul style="list-style-type: none">• Clogged Filter,	<ul style="list-style-type: none">• Change Filter.
Unit overheating	<ul style="list-style-type: none">• Air ventilation around unit not sufficient.	<ul style="list-style-type: none">• There must be at least 30cm between unit and wall or other appliances.
	<ul style="list-style-type: none">• Air inlet or air outlet is being obstructed or blocked by foreign objects.	<ul style="list-style-type: none">• Ensure there are no object obstructing the air inlet or air outlet.
	<ul style="list-style-type: none">• Internal malfunction.	<ul style="list-style-type: none">• Call Customer Service.
