- We recommend the slow cooker is not placed on a stone bench top when it's cooking. This is due to bench tops being sensitive to uneven heat and may crack if heated locally. If you would like to cook with the slow cooker on the bench top, place a chopping board or heat proof mat underneath the slow cooker.

- Keep the slow cooker clean. Follow the cleaning instructions provided in this book.

WARNING

Hot surfaces during and after use.

IMPORTANT SAFEGUARDS FOR ALL ELECTRICAL APPLIANCES

- Fully unwind the power cord before use.
- Do not let the power cord hang over the edge of a bench or table, touch hot surfaces or become knotted.
- To protect against electric shock do not immerse the power cord, power plug or appliance in water or any other liquid.

A BEGINNER'S GUIDE TO SLOW COOKING

with your Breville product

A BEGINNER'S GUIDE TO SLOW COOKING

The Breville Flavour Maker is designed specifically for flavour layering. A technique professional chefs use to enhance and deepen the taste of meals by using the same pan for browning onions, searing meats and creating casseroles, curries, soup, stock and bolognaise.

For this reason, Breville have now developed a Flavour Maker with a EasySear™ pan. Simply remove the EasySear™ pan from the slow cooker base and use on the gas, electric or ceramic stovetop to caramelise vegetables and sear meats before placing back into the slow cooker base and commencing the Slow Cook function.

Following is a guide to help simplify the process of slow cooking, allowing you to obtain optimum results from your slow cooker.

We have also included helpful hints for successful slow cooking. For recipes, go to www.breville.com.au and recipes in this instruction book.

PREPARING MEAT AND POULTRY

Select the leanest cuts when purchasing meat. Trim the meat or poultry of any visible fat. If possible, purchase chicken portions without the skin. Otherwise, the slow cooking process will result in extra liquid being formed from the fat as it melts.

For casserole type recipes, cut the meat into cubes, approximately 2.5cm to 3cm. Slow cooking allows less tender cuts of meat to be used. The bones can be left on meat or poultry if liked and will help to keep meat tender during cooking.

SUITABLE MEAT CUTS FOR SLOW COOKING

Beef	Chuck, skirt, round steak, boneless shin (Gravy) beef, bone-in-shin (Osso Bucco).
Lamb	Shanks, drumsticks (frenched shanks), neck chops, boned out forequarter or shoulder.
Veal	Diced leg, shoulder/ forequarter chops and steaks, neck chops, knuckle (Osso Bucco)
Pork	Leg steaks, diced belly, Diced shoulder, Boneless loin chops

PREPARING VEGETABLES

Vegetables should be cut into even-sized pieces to ensure more even cooking. Frozen vegetables must be thawed before adding to other foods cooking in the slow cooker with a EasySear™ pan.

PREPARING DRIED BEANS AND PULSES

If time permits, overnight soaking of dried beans and pulses is preferable. After soaking, drain and place in the slow cooker and cover with sufficient water to reach double their volume. Cook beans on the HIGH setting for 2 to 4 hours or until tender. Pre-soaked beans and pulses will cook a little faster.

A BEGINNER'S GUIDE TO SLOW COOKING

SEARING AND BROWNING BEFORE SLOW COOKING

Searing and browning in the EasySear™ pan on the stovetop may take a little extra time and whilst not strictly necessary, the rewards are evident in the end result.

The EasySear™ pan keeps the heat stable and uniform allowing the meat to brown and form an even crust. Plus searing and browning seals in the moisture, intensifies the flavour and provides more tender results.

Once searing and browning is complete, return the EasySear™ pan to the slow cooker base with all the tasty caramelized ingredients inside.

USING THE TEMPERATURE CONTROL SETTINGS

This slow cooker has three settings: Low, High and Auto. Use the recommended guidelines below to determine cooking time and heat setting and use recipes in this instruction book. Dishes can be prepared well in advance of mealtime and cooking time regulated so that food is ready to serve at a convenient time.

A general rule of thumb for most slow cooked meat and vegetable recipes is:

SETTING COOKING TIME	
LOW	6 to 10 hours
HIGH	3 to 4 hours
AUTO	4 to 6 hours

Your favourite traditional recipes can also be easily adapted to this slow cooker. Simply halve the amount of liquid and increase the cooking time. The following is a guide to adjusting your favourite recipes.

NOTE

These times are approximate. Times can vary depending on ingredients and quantities in recipes

TRADITIONAL COOKING TIME	SLOW COOKER COOKING TIME (WITHOUT SEARING)		
	LOW	HIGH	AUTO
35 to 60 minutes	6 to 10 hrs	3 to 4 hrs	4 to 6 hrs
1 to 3 hours	8 to 10 hrs	4 to 6 hrs	6 to 8 hrs

TRADITIONAL COOKING TIME	SLOW COOKER COOKING TIME (WITH SEARING)		
	LOW	HIGH	AUTO
35 to 60 minutes	4 to 5 hrs	2 to 3 hrs	3 to 4 hrs
1 to 3 hours	5 to 6 hrs	3 to 4 hrs	4 to 5 hrs

COOKING TIMES (WITH SEARING)

When the EasySear™ pan is used for searing on the stovetop prior to being placed in the slow cooker, cooking times will be shortened slightly. Check for doneness intermittently during cooking.

NOTE

These cooking times are approximate only and times can vary depending on ingredients, quantities in recipes and whether the EasySear™ pan and its ingredients are hot from searing.

NOTE

High humidity, altitude, cold tap water, ingredients and minor fluctuations may slightly affect the cooking times in the slow cooker with EasySear™ pan.

LOW SETTING

The LOW setting gently simmers food for an extended period of time without overcooking or burning. No stirring is required when using this setting.

HIGH SETTING

The HIGH setting will cook food in approximately half the time required for the LOW setting. Some foods may boil when cooked on the High setting, so it may be necessary to add extra liquid. This will depend on the recipe and the amount of time in which it is cooked. Occasional stirring of stews and casseroles will improve flavour distribution.

The HIGH setting in this slow cooker cooks considerably faster than the AUTO or LOW settings and can be used if time is a constraint. Simply place your favourite meal on HIGH for 3 to 4 hours and you will have a cooked meal in a fraction of the time.

AUTO SETTING

The AUTO setting will begin cooking on HIGH and then will shift to Low after approximately 2 hours of cooking time for added ease and simplicity.

ROASTING IN THE SLOW COOKER

Roasting meats in the Flavour Maker creates tender, flavoursome results. The long, slow, covered cooking process breaks down and softens the connective and muscle tissue within the meat, making it easier to slice. Cheaper cuts of meat can be used to provide perfect results cooked by this method.

Meat will not brown during the slow cooking process, so for browner results sear in the EasySear™ pan on the stovetop first before placing back into the slow cooker base.

The addition of liquid is not required for roasting. Elevate the meat to be cooked on the provided stainless steel rack. This will assist in keeping the surface of the meat dry and free from any fat released throughout the cooking process.

SUITABLE MEAT CUTS FOR ROASTING

Beef	Blade, Rump, Rib Roast, Sirloin, Silverside, Topside.
Lamb	Leg, Mid Loin, Rack, Crown Roast, Shank, Shoulder, Mini Roasts.
Veal	Leg, Loin, Rack, Shoulder/Forequarter.
Pork	Loin, Neck, Leg, Racks (remove skin & fat).

POT ROASTING IN THE SLOW COOKER

The addition of liquid is required for pot roasting. Place sufficient liquid into the removable EasySear™ pan to cover up to a third of the meat. Meat will not brown during the pot roasting process, so for browner results sear in the EasySear™ pan on the stovetop first before placing back into the slow cooker base for pot roasting.

SUITABLE MEAT CUTS FOR POT ROASTING

Beef	Topside, Blade, Silverside Roasts, Rolled Brisket.
Lamb	Forequarter, Shank, Shoulder.
Veal	Shoulder/Forequarter.
Pork	Loin, Neck.

USING THE EASYSEAR™ PAN AS STAND ALONE COOKWARE

This slow cooker is equipped with a diecast removable EasySear™ pan to withstand temperature extremes. It can be used for browning and searing on a gas, electric or ceramic stovetop or as a traditional roasting pan for use in the oven.

The removable EasySear™ pan and stainless steel lid is safe for use on stovetops and in conventional ovens up to 250°C.

NOTE

We do not recommend to use the stainless steel lid in the oven. If it is used in an oven it may discolour.

NOTE

While silicone handles are heat resistant to 250°C, it is not recommended to use for extended periods above 200°C.

HINTS AND TIPS

for your new Breville product

HINTS AND TIPS

- Trim all visible fat from meat or poultry.
- If a recipe calls for browning the meat, it may be browned in the EasySear™ pan on the gas, electric or ceramic stovetop.
- Meat and poultry require at least 6 to 7 hours of cooking on LOW setting or 3 to 4 hours on HIGH setting.
- Ensure that the food or liquid to be cooked fills half to ¾ of the EasySear™ pan.
- If after cooking the liquid quantity is excessive, remove the lid and operate the slow cooker on the HIGH setting for 30 to 45 minutes or until the liquid reduces by the desired amount. Alternatively, the liquid can be thickened by adding a mixture of cornflour and water and cooking on HIGH setting without the lid until sauce has thickened.

DO'S

- Always thaw frozen meat and poultry before cooking.
- Use dry oven mitts when lifting the lid or removable EasySear™ pan after searing or slow cooking.
- Place the EasySear™ pan onto a heat proof mat if serving from the EasySear™ pan at the table.
- To keep foods warm for serving, turn control to the LOW setting until ready to serve.

DONT'S

- Do not operate the slow cooker without the EasySear™ pan in position, in the slow cooker base.
- Do not cook with frozen meats or poultry.
- Do not remove the stainless steel lid from the slow cooker unnecessarily as this will result in major heat loss.
- Stirring is not necessary when Slow Cooking. However, if cooking on the HIGH setting, stirring occasionally will help to distribute flavours throughout the recipe.
- Do not use HIGH setting if you intend on being away from home for more than 3 hours.

NEVER

- Place water or other liquids into slow cooker base.
- Immerse the slow cooker base, power cord, or power plug in water or any other liquid.
- Touch hot surfaces with bare hands.
- Deep fry in the EasySear™ pan.

CARE AND CLEANING

of your new Breville product

CARE AND CLEANING

- Before cleaning the Flavour Maker switch the temperature control dial to OFF, switch off at the power outlet, unplug from the power outlet and remove the connector end of the power cord from the appliance inlet.
- Remove EasySear™ pan and allow to cool completely.
- To remove stubborn, cooked-on foods in the removable EasySear™ pan, soften by filling $\frac{3}{4}$ with water, bring to a slow boil on medium heat on the stove top, add detergent and simmer for 15 minutes. Remove by lightly scrubbing with a soft nylon kitchen brush.
- The removable EasySear™ pan and stainless steel lid can be washed in the dishwasher. However, to maintain non-stick coating, it is recommended to wash EasySear™ pan in hot, soapy water using a mild household detergent. Rinse and dry thoroughly.
- Do not use abrasive cleaners, steel wool, or scouring pads as these can damage the surfaces and non-stick coating.
- To prevent damage to the appliance, do not use alkaline cleaning agents, use a soft cloth and a mild detergent.
- The brushed stainless steel slow cooker base can be wiped over with a soft, damp cloth and then dried thoroughly.

IMPORTANT

Do not use alkaline cleaning agents, use a soft cloth and a mild detergent.

IMPORTANT

Do not use abrasive cleaners, steel wool or scouring pads.

IMPORTANT

Do not immerse slow cooker base or power cord in water or any other liquid as they may cause electrocution.

IMPORTANT

Ensure removable EasySear™ pan is correctly positioned in the base before you commence cooking.
