- C. Filtered Water Reservoir
- D. Filter
- E. Lid
- F. Filter replacement indicator
- G. Water Inlet

## INSTRUCTIONS

Wash the lid, jug and funnel in warm soapy water.

Remove filter cartridge from packaging and immerse it in ambient water. Shake the cartridge under the water to remove any trapped air bubbles. Abrasion of the filter material during transport may cause loose particles and carbon dust to be lost during this process. This is quite normal and will not affect performance of your filter.

**NOTE:** Carbon is food grade and not harmful.

Leave the cartridge to soak for 20 minutes.

Insert cartridge into funnel. Press down firmly to ensure a tight seal. The filter should stay in place when water is poured from the jug.

Fill the funnel with cold tap water and allow it to filter through. Once filtered through discard of the water or use to water a plant. Repeat this process again. This will prime your filter for use and flush through excess carbon particles. It is normal for carbon dust to be expelled during this process.

## CARTRIDGE REPLACEMENT

To ensure performance is not diminished the filter cartridge should be replaced every 2-3 months or after filtering approximately 150 Litres of water, whichever occurs first.

Cartridge life depends on the quality of local water.

If you have trouble removing the filter cartridge, remove the funnel from the jug. Push upwards on the filter cartridge from the base with your fingers. The filter should move upwards enabling it to be removed easily.

Cartridge replacement product code: AQP-FCR3

## **FILTER REPLACEMENT INDICATOR**

The filter replacement indicator on the lid will remind you when to change the filter.

Underneath the lid is the reminder dial. Turn the dial in a clockwise direction and line up the month and date closest when you are replacing the filters to the arrow relevant to the number of persons in the household (single, double or family)

At the top of the lid, it will indicate the month and approximate date on when to replace filters.

## **MAINTENANCE**

Hand wash the parts of your filtered water jug regularly in warm soapy water, at least every time you change the filter cartridge. Make sure to remove the filter while cleaning. Rinse and dry parts completely.

Do not use solvents or corrosive chemicals to clean. Never use abrasive pads on this product.

Keep water filter out of direct sunlight and away from heat sources.

### **Your Aquaport Australian 12 Month Repair or Replacement Warranty**

Aquaport warrants this appliance to the first purchaser and subject to the stated conditions:

Warranty covers any defects in material or workmanship in the manufactured product within the first twelve months from date of purchase.

To make a warranty claim you must call Aquaport on toll free number 1300 764 325 for instructions.

Product will be repaired or replaced at our discretion. Repair or replacement costs will be covered under warranty by Aquaport.

Goods presented for repair may be replaced by refurbished goods of the same type rather than being replaced. Refurbished parts may be used for the repair of goods.

Warranty does not cover filter cartridge which is a consumable unless proven to have defects in material or workmanship in the manufactured product.

The benefits given to you by this warranty are in addition to other rights and remedies of the consumer law in relation to the goods or services to which this warranty relates.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonable foreseeable loss or damage.

You are also entitled to have the goods repaired or replaced if goods fail to acceptable quality and the failure does not amount to a major failure.

**Conditions Of This Warranty:**

1. This product has been fully installed in accordance with the user manual installation instructions.
2. The warranty extends only to repairing or replacing any component that proves to be defective in material or workmanship.
3. The warranty does not cover defects occasioned by misuse, alterations, accidents, or used for other than the intended purpose.
4. The warranty does not cover use of this product where water is microbiologically unsafe or of unknown quality, without adequate disinfection before or after the system.
5. The warranty does not cover damage to the product caused by accident, fire, or floods, power surges or blackouts.

**Please keep purchase receipt in a safe place.**

To enable us to register your warranty and provide service should a problem occur, we recommend you register your warranty online at: [www.aquaport.com.au/warranty-and-registration](http://www.aquaport.com.au/warranty-and-registration)
