## MEDIA RELEASE

February 2013

### The one-stop kitchen tool

The new **Breville All In One** (BSB530) is a one-stop food processing station.

With six versatile attachments it helps home cooks blend, whisk, mash, slice, chop and shred like a pro.

Create silky smooth soups, dips and purees with the anti-suction blending head, or allow the whisk attachment to whip and aerate for fluffy frittatas and pancakes.

Potatoes can be textured to perfection with a variable mashing head. From creamy to coarse, the ergonomic Control Grip handle makes it easy to process large quantities.

Slice, chop and shred in a fraction of the time with the 1.6 litre food processing bowl. Including three interchangeable blades, this space saving appliance has all the functionality of a stand-alone food processor.

The variable slicing disc offers 24 precise thickness settings to produce consistent, even slicing in seconds – from 0.5 to 6mm. The quad blade attachment ensures the entire bowl's contents are processed simultaneously for even consistency. Finally, the reversible shredding disc offers a fine and course grating setting.

For complete convenience, after use simply pop in the dishwasher then place attachments on the specifically designed storage tray.

**Breville All In One™ (BSB530) \$199.95 rrp**
